The power to do more, anywhere

Today's hybrid workforce needs a hybrid means of staying productive. No PC on hand? No problem. Pull moto edge 50 pro business edition from your pocket and sign in your Windows 365 Cloud PC whenever you need it. The portable power of the Enhanced Windows 365 App gives you a smarter way to stay on top of your work.

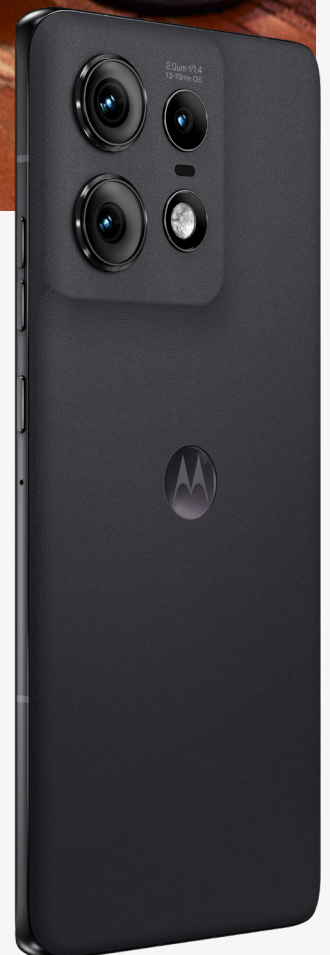

The full Cloud PC experience in your pocket

Windows 365 delivers a personalized Windows experience from the Microsoft Cloud to a Windows 365 Cloud PC, accessible on any device, wherever your employees are located. moto edge 50 pro business edition gives you secure mobile access to all your personalized Cloud PC content, settings, and applications - so you can manage workflows wherever you go.

For a full desktop experience delivered from the cloud, simply plug moto edge 50 pro into an HDMI external monitor and then pair it with a wireless keyboard and mouse. Windows 365 integration allows quick and easy desktop access wherever you are.

Easy to use, easy to manage

moto edge 50 pro business edition is designed for hassle-free, zero-touch enrollment, so it's set up and ready to go right out of the box. Intuitive device configuration options allow app-specific customization of the mobile Windows experience. This makes it easy for IT administrators to set policies, enforce security, schedule updates, and optimize device performance according to the needs of each end user.

Business-grade security deserves reinforcement

ThinkShield built-in

ThinkShield for mobile is designed to deliver best-in-class security, manageability, productivity and service, giving your fleet of mobile devices 360° of business-grade protection.

Moto Secure 3.0

The new release of Moto Secure available from motorola edge 50 pro brings security and privacy functionalities into one single application on Motorola devices, allowing users to manage network security, control app permissions, and even create a secret folder for their most sensitive data. Motorola also enables IT admins to configure, manage and enforce Moto Secure 3.0 functionalities for company-owned devices via Moto Device Manager or their EMMs.

Auto lock 2FA

Available on motorola edge 50 pro, Moto Secure can detect when your phone is out of a trusted environment you defined, and locks your device screen automatically. Two-factor authentication is then required to make sure that the device is only accessed by the right person, keeping sensitive data safe even if your phone is lost or stolen.

Moto KeySafe: enabled

Hardware based tamper resistant

Isolated hardware security module with counter measures against attacks.

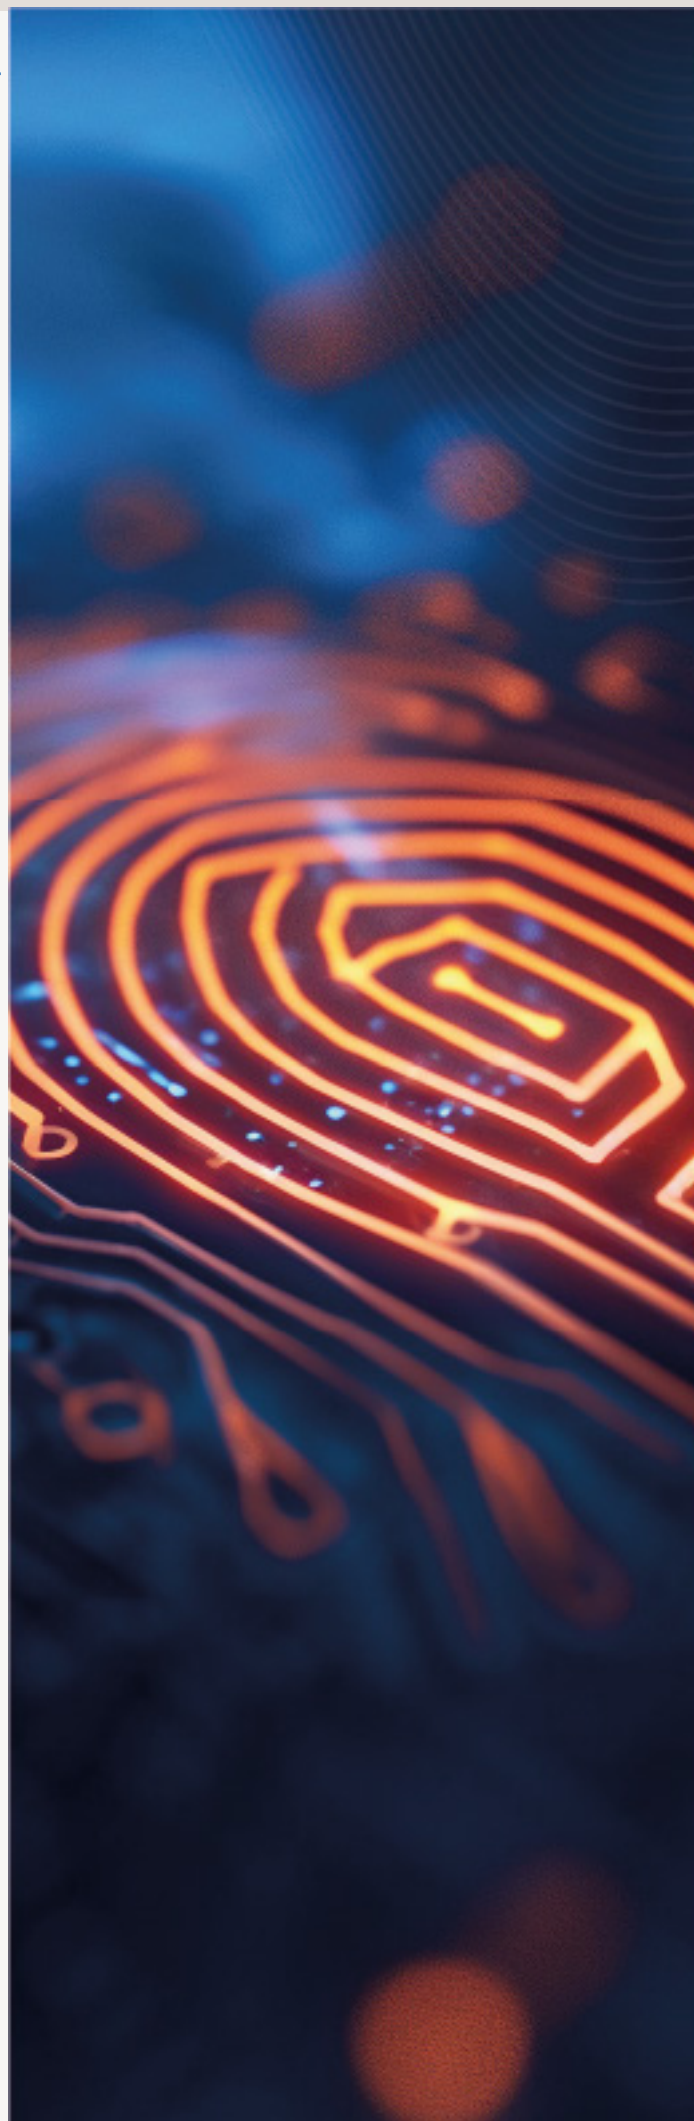

Advanced authentication

Enables digital keys for cars, digital wallet for e-money solutions, and others.

Protects Sensitive Data

High-security operating environment for safeguarding sensitive data.
